

Southnet Trade Australia is located in the heart of Australia's largest fruit and vegetable growing region.

Our main export Avocado varieties are Shepherd, Wertz & Hass.

Hass variety has a considerable shelf life if handled correctly and can travel readily to most destinations by air and sea. Modified atmosphere shipping containers can provide shipping potential for Hass of ten weeks.

Other varieties are less durable and are restricted to airfreight or shipment by modified atmosphere seafreight container which provides a shipping potential of about three weeks.

The Avocado size mix is dependent on conditions through the growing season. Grades are 16's, 18's, 20's, 23's, 24's, 28's and 30's with 136 trays per seafreight pallet.
