

AUSSIE ONIONS

IN BAGS OR BINS

Southnet Trade Australia is a major exporter of quality Australian mild and storage onions. We are the sole exporters of Aussie Mild onions grown under contract across Australia.

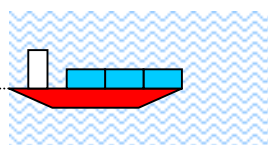

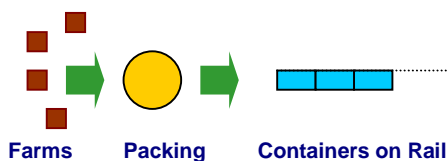

Working with some of the world's premier seed breeders and with the support of government agencies, producer networks and logistics companies across Australia we have established production, grading and handling protocols to deliver the Australian onion crop to quality standards demanded by the most discerning world markets.

Southnet onion production areas have been selected for soil type, climate and seasonality. Our onion farmers are chosen from the most experienced and quality focused onion producers in each region.

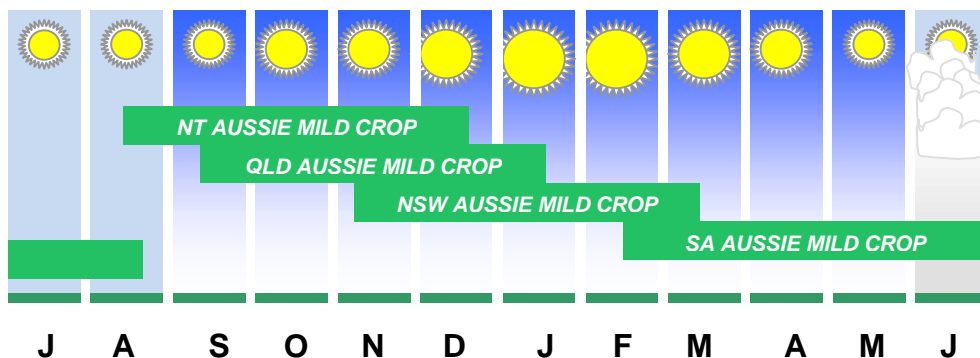

Onions are shipped in reefer and insulated Hi Vent containers depending upon transit times and seasonal conditions. Size grading is to specification into bags and bins
