

SOUTHNET

TRADE AUSTRALIA

AUSTRALIAN ORANGES

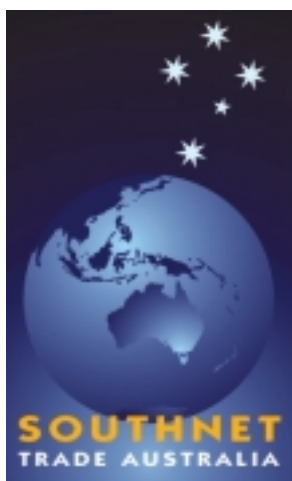

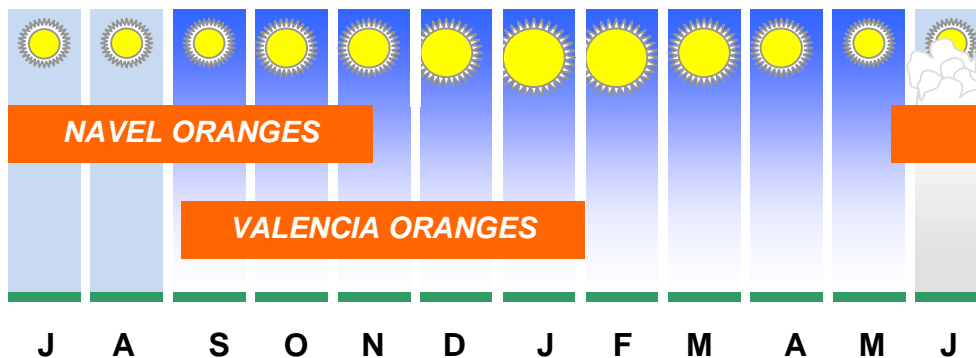

IN CARTONS, BINS OR PREPACKS

Southnet Trade Australia is located in the heart of Australia's largest citrus growing region.

Citrus growers in this region of southeastern Australia produce 60% of Australia's fresh and juicing oranges.

The specification for Australian Class One oranges is equivalent to US Fancy Grade with less than 5% variation in shape, colour, deep blemish, corrugations and navel size. The Australian Composite Grade orange specification is equivalent to US Choice Grade with 10-15% variation in shape, colour, deep blemish, corrugations and navel size. No one piece of fruit will have a blemish larger than 12mm.

Growers deliver direct from the orchard to our packing sites. We generally pack 20kg cartons, bulk bins and prepacks. Refrigerated shipping containers are packed on rail and delivered immediately to Port.
