AUSTRALIAN PASTA

Southnet Trade Australia is located in the Riverina region – at the heart of Australia’s southern grain belt.

Quality Australian grown durum and hard wheat is milled at the Manildra Group durum and hard wheat semolina mill in northern NSW to produce the raw materials for the production of Australia’s finest Vetta and Nanda brands of pasta.

At the Manildra Group’s factory near Leeton in southern NSW, pasta products are manufactured to the highest quality standards for Australian and overseas markets.

As a major regionally based exporter of foods from Australia’s food production areas and an authorised exporter of Manildra Group products Southnet can manage all aspects of the communication and export supply chain from this integrated base.

Contact Southnet for Fine Quality Australian Vetta and Nanda Pastas
