

Southnet Trade Australia is located in the heart of Australia's southern grain belt.

We are authorised buyers of grains and oilseeds and specialise in export of wheat bagged or bulk in container. Our integrated infrastructure for export is designed to drive the export point as close as possible to the place of production. We manage all aspects of the supply chain from the point of production to overseas customers.

Fixed grain bagging and bulk containerisation sites combined with our mobile facility provide us with many opportunities to procure, pack and transport wheat.

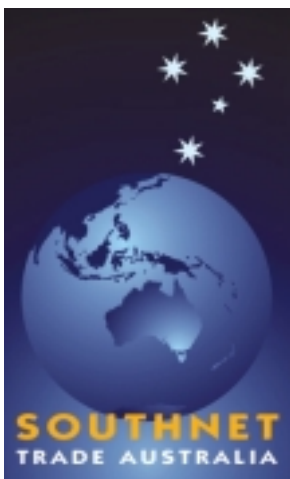

Farmers deliver direct to our packing sites that are strategically located on rail lines. For grains in remote locations we travel to grains storage sites and deliver packed containers onto rail at the closest point.
